Administrative Order No. 139
Series of 2002

SUBJECT: Guidelines in the Organization and Mobilization of Area-Based Standards Network (ABSNET)

I. RATIONALE

The Department of Social Welfare and Development (DSWD) recognizes the vital role of its partners in governance, particularly those of the Non-Government Organizations (NGOs), the Local Government Units (LGUs) and People’s Organizations (POs), among others. Inspired by the positive responses yielded by the consultation dialogues aimed at institutionalizing partnership relative to licensing and accreditation of SWD agencies, the DSWD pilot-tested a strategy called Area-Based Standards Network (ABSNET) in Regions IV and XI in CY 2001. It confirmed the enthusiasm and willingness of NGOs and LGUs to forge partnership with the DSWD to ensure quality social welfare service delivery to the poor, vulnerable and disadvantaged groups, thus, uplifting their living conditions.

The Area-Based Standards Network is a strategy with the end goal of institutionalizing partnership with the NGOs licensed and accredited by the DSWD, and the Social Welfare and Development Department of the LGUs, which constitute the intermediaries for social welfare service delivery. It aims to provide participative and consultative mechanisms in the areas of standards development, licensing and accreditation, capability building, technical assistance and resource augmentation.

It involves the organization and mobilization of the intermediaries at the local level to evolve and implement an adaptive social welfare and development standards and licensing and accreditation system. Partnership is operationalized through involvement of NGOs and LGUs in the conduct of licensing and accreditation assessment, peer helping, exchange of information and expertise, policing their own ranks, and complementation of resources.

While the issuance of the license and accreditation certificate and setting of SWD standards are inherent to the functions of the DSWD, the ABSNET will have a recommendatory role.

These guidelines are therefore promulgated to facilitate installation of ABSNET in the regions.
