Administrative Order No. 84
Series of 2003

DSWD's IMPLEMENTING GUIDELINES
ON THE PGMA's MICRO-FINANCING
and ENTERPRISE DEVELOPMENT PROGRAM

1.0 Rationale

In line with the thrust of the present Administration to sustain the country's economic growth through the establishment of micro-enterprises nationwide, a PGMA Micro-Financing and Enterprise Development Program shall be set up by the Office of the Special Projects-President Management Staff (OSP-PMS) in coordination with the Department of Social Welfare and Development.

The amount of P1M each for every district/city/municipality earlier released by the President from the Presidential Social Fund (PSF) to local government units and congressional districts under EO 176 "Isang Bayan, Isang Produkto, Isang Milyong Piso Program" shall be utilized for the purpose.

Due to the stringent loan application requirements of GFIs, and limitation of the coverage of EO 176, majority of the recipients could not qualify for GFIs loans. Hence, these funds were returned to the Office of the President for re-issuance to DSWD or direct to the identified beneficiaries of the Congressmen.

The President, in her memorandum dated 18 November 2003, directed the DSWD to lead the implementation of the Program utilizing key features of the Self-Employment Assistance (SEA-K) Kaunlaran Program scheme in the implementation of the micro-financing programs and other livelihood/micro-enterprise projects of local government units, district congressmen, barangay councils and associations/organizations under the PGMA's Micro-Financing and Enterprise Development Program.

Hence, this guideline is issued to supplement the OP-PSF Implementing Guidelines.
2.0 Program Objectives

The specific objectives of the Micro-Financing and Enterprise Development Program are as follows:

2.1 Pursue the implementation of other micro-enterprises/livelihood projects which could not avail of loans from government financing institutions (GFIs) under the “Isang Bayan, Isang Produkto, Isang Milyon Piso” program and SME Unified Lending Opportunities for National Growth (SULONG) Program;

2.2 Allow the implementation of micro-financing projects by newly organized associations/organizations; and

2.3 Address the decline of employment on agriculture sector due to El Nino, through the provision of loans under a micro-financing scheme

3.0 Program Components

The implementation of the PGMA Micro-Finance and Enterprise Development Program has the following components:

3.1 Social Preparation

- The social preparation aspects involves coordination by the DSWD Offices with the concerned Congressperson/LGUs and other entities with regards to identification of beneficiaries. This is a process of socio-economic assessment and community awareness raising by allowing them to experience the opportunity of being involved in the conduct of participative data gathering, analysis, identification of priority needs and problems, appraisal of community resources and formulation of community development goals/plans/activities. Beneficiaries will be organized into associations/groups utilizing key features of the DSWD SEA-K Program as conduits in the development process and implementation of the livelihood projects.

3.2 Capability Building

- The provision of capability building activities is a major part of the project implementation. This involves the conduct of training activities and other related sessions like values formation and entrepreneurial skills. This will be done in
coordination with other government and private agencies working in the area of the identified beneficiaries.

3.3 Provision of Loan Assistance

- This involves the provision of loan assistance to organized beneficiaries, associations/groups endorsed/identified by the Congressperson/LGUs as a credit facility for their members in establishing a feasible micro-enterprise that would generate sustainable employment and income.

3.4 Savings Mobilization for Equity Capital Build-Up and Related Funds Build-Up

- This involves savings mobilization and funds build-up which aims to ensure project sustainability in the course of managing the micro-enterprise businesses until the full return of the loan assistance. This motivates and enables the associations/groups members to progressively save and invest their own capital. Related funds build-up will include operating expenses, which will ensure availability of funds that will meet basic or essential operating expenses. Emergency funds will be utilized to support members who are faced with crisis and family emergencies such as deaths, serious illness, etc.

3.5 Accessing of Basic Social Services

- The associations/groups shall be trained on how they can access other needed services based on their needs. Existing NGOs and the local government units shall be coordinated to systematize active networking at the community level.
