MEMORANDUM CIRCULAR NO. 04
Series of 2008

SUBJECT: STRENGTHENING THE SOCIAL WELFARE AND DEVELOPMENT (SWAD) TEAM AT THE PROVINCIAL LEVEL

I. RATIONALE

With the enactment of RA 7160, otherwise known as the Local Government Code of 1991, the Department of Social Welfare and Development (DSWD) was mandated to devolve to the local government units its primary function of implementing major social welfare services, specifically the community based services. As a consequence, the Department continued to manage its center-based programs, retained court related and special projects, while assuming steering roles such as policy formulation, standard setting, monitoring and technical assistance. In addition, the Department intensified its role as enabler and partner of local government units (LGUs), non-government organizations (NGOs) and people’s organizations (POs) in promoting social welfare and development.

Given the need to further enhance the capability and competency of service providers on handling the delivery of basic social services devolved to them effectively and efficiently, there is a need to install a mechanism of providing technical assistance and resource augmentation to LGUs and other intermediaries. Thus, DSWD continues to provide these technical assistance and resource augmentation to the extent possible so local government units could deliver quality social welfare and development services to depressed barangays and on a demonstration basis, provide protective services to individuals, families and communities in crisis situation. These are among the reasons why DSWD maintains a Social Welfare and Development (SWAD) Team in the provinces which serves as the front liners of the Department along the implementation of the retained social welfare programs and services, special national projects, and as nerve centers for environmental scanning, rapid assessment, monitoring and feedbacking.

This memorandum, therefore, aims to strengthen the SWAD Team by providing its Terms of Reference (TOR).

II. DESCRIPTION OF THE TEAM

The team ensures that the national DSWD is represented “when and as needed” and that technical assistance and resource augmentation are available to the DSWD’s partners, intermediaries and clientele, in close consultation with the concerned Field Office. The team strategy fosters continuing assistance to the LGUs, NGOs and POs to enable them to adapt and implement the programs and services responsive to local social welfare and development concerns, as well as enhance their capacities for efficient and effective social welfare service delivery.
