MEMORANDUM CIRCULAR No. __14__
Series of 2015

SUBJECT: AMENDING MEMORANDUM CIRCULAR NO. 18, SERIES OF 2012, BY CREATING THE CONVERGENCE TECHNICAL SUPPORT UNITS AND MODIFICATION OF ITS MANDATE, FUNCTIONS, AND STRUCTURES

I. RATIONALE

In order to maximize the impact of its social protection programs and initiatives, the Department of Social Welfare and Development has adopted Convergence Strategy. It presents the ideal mechanism that must be embedded in the paradigm and harmonizes the interface of the various program process owners. The renewed focus of calibrating the integration of the Strategy by decentralizing its operationalization will intensify greater convergence of various stakeholders both internal and external. And as the Department gears to scale up its interventions to improve the well-being of its beneficiaries, there are different development activities and initiatives that are being implemented at the regional, provincial and municipal levels directing all efforts and resources purposively to the poor who should benefit more programs and services from the government and the privates sectors. This requires appropriate policy environment and a responsive structure that could effectively deliver the envisioned results.

Thus, to further advance the Strategy, this Memorandum Circular amends Memorandum Circular No. 18, otherwise known as “Guidelines on Internal Convergence of the DSWD Core Social Protection Programs” by creating the National and Regional Convergence Technical Support Units with the corresponding convergence structures at the provincial and city/municipal levels governed by the new mandates, functions and structures.

II. LEGAL BASIS

The following laws and policies provide the legal bases and establish the mandate of the Department of Social Welfare and Development to adopt Convergence Strategy in the implementation of its Core Social Protection Programs.

1. Republic Act 5416 of 1968 created the DSWD and mandates the Department to set standards and policies to ensure effective implementation of public and private social welfare programs;

for inclusive growth and serves as the government’s blueprint that will facilitate social development and achieve improved the quality of life of all;

3. **Executive Order 43 s. 2011** – Human Development and Poverty Reduction Cluster – a venue and mechanism for coordination, harmonization, complementation and synergy among the Departments and other government instrumentalities in partnership with the private sector and civil society organizations.

4. **Executive Order No.26, S. 2011 National Convergence Initiatives:** Complementation of agency initiatives for sustainable rural development through common intervention strategy that will facilitate the convergence of the resources of the three agencies. (Interdepartmental Convergence Initiatives for a National Greening Program between DA-DAR-DENR.

5. **Executive Order No. 15 Series of 1998 and Executive Order 221 S. 2003** Redirects the Function and Operations of the Department of Social Welfare and Development) and emphasized the role of DSWD to enable LGUs, NGOs, Other NGAs, POs and other member of society in implementing social welfare and development programs.

6. **NEDA-SDC Resolution No. 3 2012:** “ Approving and Adopting the Social Protection Operational Framework” to serve as guide for implementing social protection programs/interventions and other SP-related policies.

7. **Memorandum Circular No. 18, Series of 2012:** Guidelines on Internal Convergence of the DSWD Core Social Welfare Protection Programs

9. **DSWD Memorandum Circular No. 1, Series of 2012,** states that the main objectives of re-clustering of the DSWD are to further strengthen the Department’s operations and increase the efficiency and synchronicity of the different offices, bureaus, services and units in the achievement of the DSWD’s vision, mission and reform agenda providing better, faster and smarter social protection programs to the poor and vulnerable.

### III. OBJECTIVES

The Philippine Development Plan (PDP) 2011-2016 serves as a guide for the government in formulating policies and in the implementation of development programs. It has also identified convergence as a key strategy in achieving inclusive growth. The Department for its part adopted the strategy to ensure complementation of its core programs and strengthen collaboration with external stakeholders to maximize results.
